

## Virtual Poker Game

US Poker & Casino Parties is now offering Virtual Texas Hold'em Poker Tournaments just like the ones we do live. Guests can join a poker table remotely and play with colleagues, clients or friends. Each player is given a 'starting stack' or set amount of play chips to begin the game with and then we *Shuffle Up and Deal!*

Leveraging two proven technologies we are able to recreate the poker playing experience for remote guests so they can play from home, office or anywhere they would like. We work with you, the client, to set the games 'betting' structure and go over the logistics to roll it out to your team. Our Tournament Director then oversees and helps you manage the flow and timing of the game and is there at answer any question. Each game is approximate one hour. You can play up to three games per session.

Below are a few steps to follow to join the fun. Follow along and let's play!

**Step 1:** Downloading the gaming software from *PokerStars*.

**Step 2:** Set up a *PokerStars* profile.
